

Infinity[®]
THE UNIVERSAL BOX

NOBILIS[®]

Winning ideas

The Nobili Idea: is a universal box method, simple and fast to install. A genius and innovative idea: a system that simplify the project and its realization. A simple shower box to incase in the wall, of which on the second time the final user may equate **Infinity®** and the variety of other esthetic functions.

THE DIFFERENCE OF THE FOUR POINTS

1. THE MAXIMUM SIMPLICITY

Clear and simple: to install one part unit for the total shower installation, there is one or more way out, different cartridge installed.

2. FAST WATER FLOW

Adjoining one or two water exits, then you may determine one of the two desired water exits.

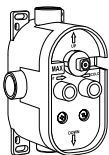

3. MAXIMUM SAVINGS

Different installations; it is always basically the same; fast and simple work, means saving time and achieving maximum savings.

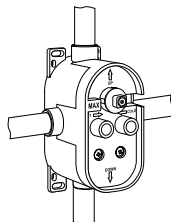

4. MAXIMUM EXPERIENCE

The last user will choose the final shower mix water flow desired; (the traditional thermostatic end) and having the final appearance of having at your disposal a great variety of different water flows.

1 The Infinity® Box: is a unique part of infinity solutions

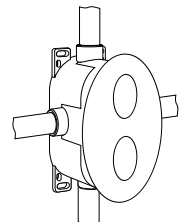

2 The pipes are connected: water in and out, one or two (it depends on the installation)

3 Work is done, now you can go...

4 The final method: to install the trim desired

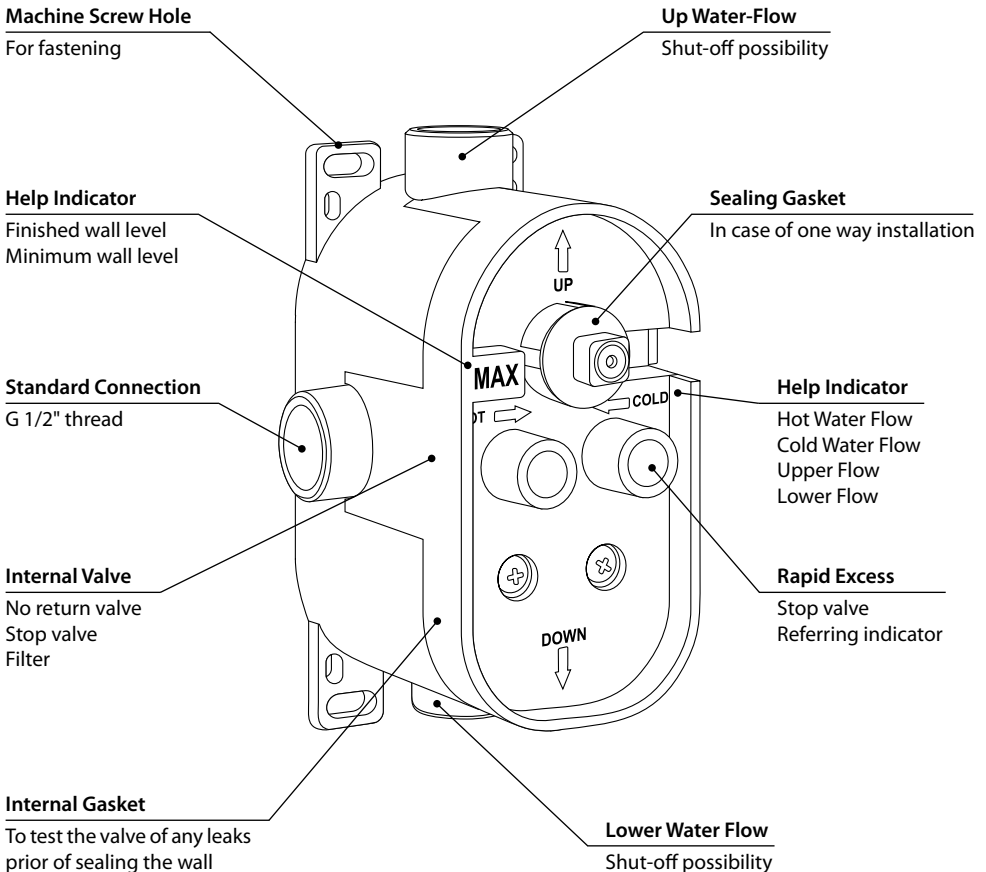

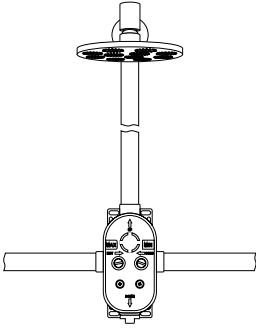

Simplicity and technology

As the saying is "All for one" and "One for all" obviously, the saying still applies. With the **Infinity®** Universal Box. Only one piece is left to figure it out with the multi finish-color parts. The diverse type, style, function and pricing, the traditional cartridge or the thermostatic cartridge, for simple and fast installation.

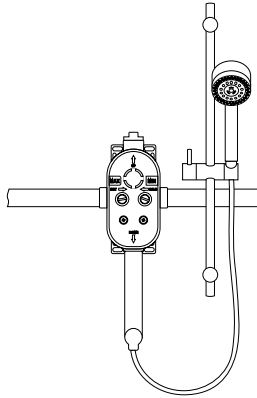

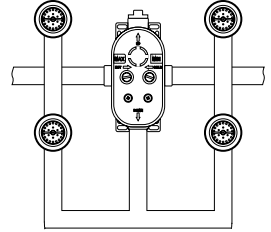

UTILIZING 1 WAY INSTALLATION: EXAMPLE

↑ Shower head

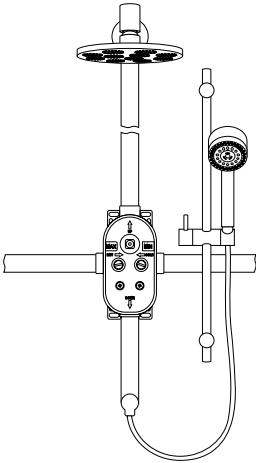

↓ Sliding rail

↓ Bodyjet

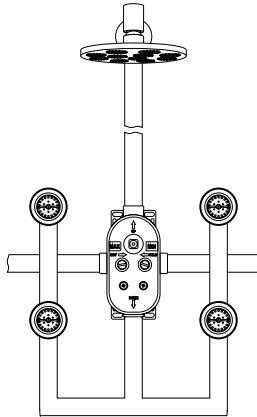

UTILIZING 2 WAYS INSTALLATION: EXAMPLE

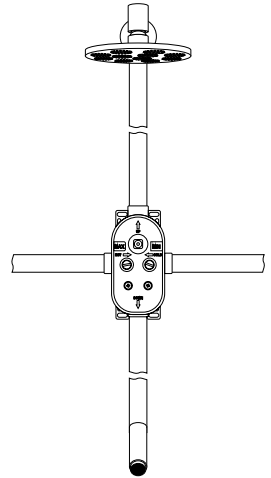

↑ Shower head

↓ Sliding rail

↑ Shower head

↓ Bodyjet

↑ Shower head

↓ Side spout

Infinity possibilities

On these pages there are some examples of shower and tub designs, compatible with **Nobili Infinity®** with the traditional cartridge, or the **Nobili Thermotech®** cartridge, or with the immersion cartridge **Nobili Widd®**.
